Corporate Overview:

Raimand MA Industrial Group Co, is a leading producer, processor and global supplier of strategic minerals and metals, serving the metallurgy, foundry, energy and chemical industries. With modern production facilities across key mineral-rich regions of Iran and a strong international export record, we provide consistent quality, reliable supply and long-term value to our global partners.

For more than five years, we have built a reputation for operational excellence and integrity, exporting to major industrial hubs including China, India, UAE, Indonesia, Malaysia, Turkey and Russia. Our vertically integrated operations, from mine sourcing to processing and logistics, enable us to deliver competitive and dependable solutions across our diverse product portfolio.

Who We Are:

We are a multidisciplinary mineral resources company committed to advancing the global supply chain of Chrome, Antimony, Molybdenum, Coal and Ferroalloy materials. With a strong team of industry professionals, modern production plants and long-term partnerships with mines and industrial consumers, we act as a trusted bridge between raw material sources and global end-users.

Our philosophy is simple: quality, reliability and well-planned partnership. We strive to be more than a supplier and our goal is to be a strategic and value-creating partner for every client we serve.

What We Do:

We specialize in the **production, processing and international supply** of metallic and mineral raw materials essential to steelmaking, alloy production, foundry applications and energy generation.

Our core activities include:

- **Production** of Chrome Concentrate, Foundry Chrome Sands, Antimony Concentrate and Molybdenum Oxide at our dedicated facilities in Iran.
- **Supply & Trade** of Chrome Ore, Antimony Ore, Ferro-Silicon, Copper Concentrate and Steam Coal sourced from reliable mines and partners.
- **Quality Assurance & Technical Control** through continuous monitoring, in-house lab testing and compliance with international industrial standards.
- **Export & Logistics Management** to ensure efficient shipment, timely delivery and regulatory compliance.

Mission & Vision Statement:

Our mission is to deliver high-quality mineral products that empower global industries, while upholding the values of professionalism, transparency and sustainable operation.

We aim to create long-term partnerships by offering dependable supply, competitive pricing, and proactive service tailored to each client's needs.

Our Vision is to be recognized as a **globally trusted supplier and producer of strategic industrial minerals**, expanding our market presence through continuous innovation, operational excellence and responsible resource management.

Our Core Values:

- **Integrity:** We conduct every transaction with transparency, fairness and reliability.
- **Quality Commitment:** Superior product quality and consistent specifications are at the heart of our operations.
- **Customer Focus:** We build lasting relationships by understanding and serving the real needs of our clients.
- **Operational Excellence:** Efficient processes, modern facilities and a skilled workforce drive our success.
- **Sustainability:** We prioritize responsible sourcing, environmental care and community engagement.
- **Innovation:** We continuously optimize our production technologies and supply chain solutions.

Our Business Areas:

A. Production Facilities

We operate specialized processing plants strategically located near major ore sources:

- **Chrome Concentrate & Foundry Sand Production Plant**
Location: *Fariman City, near Mashhad – Northeastern Iran*
- **Molybdenum Oxide (MoO₃) Production Plant**
Location: *Zanjan Province – Northern Central Iran*

These facilities ensure consistent quality, efficient logistics and flexible monthly capacities to meet diverse customer requirements.

Our Business Areas:

B. International Trade & Supply

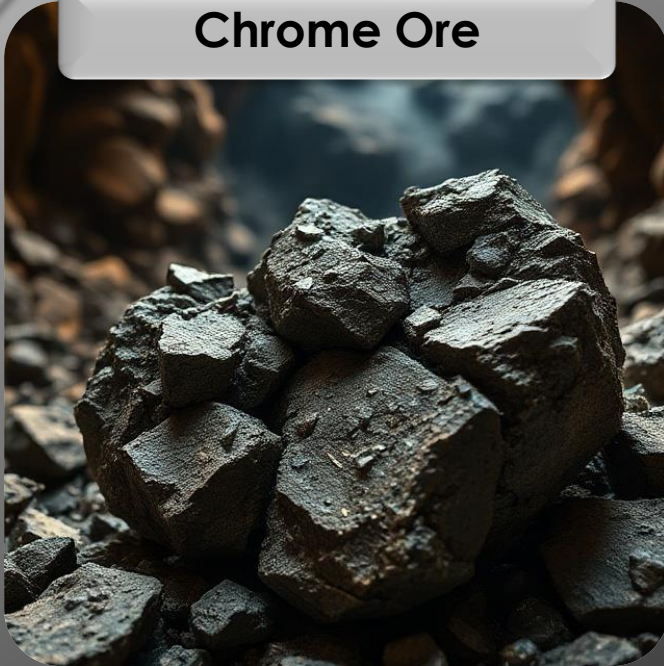

We maintain long-standing relationships with mines, smelters, foundries and traders across the world, enabling us to supply:

- Chrome Ore & Concentrate (Cr 40-44%)
- HC Ferrochrome (Cr 62-65%)
- Ferro-Silicon (Si 74-75%)
- Copper Concentrate (Cu 20-22%)
- Steam Coal and Coal Concentrate
- Steel Billet & Steel Rebar

Our supply chain expertise guarantees end-to-end reliability—from sourcing and inspection to shipment and documentation.

Our Products And Monthly Supply Capacities:

Chrome Ore

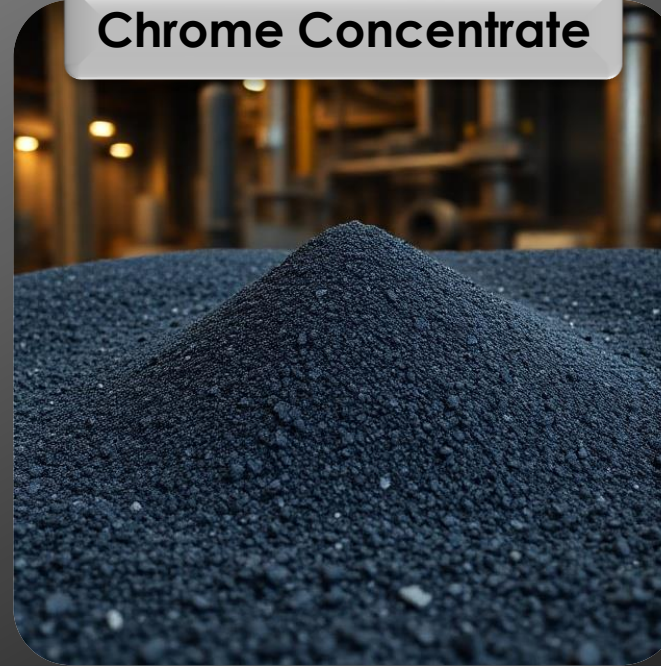

Content:	Grade	Content:	Grade
Cr_2O_3 :	40 – 44%	Fe (total)	8 – 12%
SiO_2 :	6 – 10%	Fe_2O_3 :	12 – 18%
Al_2O_3 :	6 – 9%	Cr/Fe	>2.5
MgO:	18 – 22%	Mg/Al:	>2.5
Size:		10 – 300 mm	

Packing: Bulk or Big Bags

Supply Capacity: Up to 5,000 MT/Month

Chrome Concentrate

Content:	Grade	Content:	Grade
Cr_2O_3 :	42 – 44%	Fe (total)	10 – 13%
SiO_2 :	6 – 9%	Fe_2O_3 :	14 – 18%
Al_2O_3 :	6 – 10%	Cr/Fe	≈2.5
MgO:	17 – 21%	Mg/Al:	≈2.5
Size:		0 – 1 mm	

Packing: Bulk or Big Bags

Supply Capacity: Up to 1,000 MT/Month

Our Products And Monthly Supply Capacities:

Foundry Chromite Sands (Grade A)

Foundry Chromite Sands (Grade B)

Content:	Grade	Content:	Grade
Cr ₂ O ₃ :	50 – 55%	Fe ₂ O ₃ :	20%
Al ₂ O ₃ :	10 – 12%	CaO:	0.2%
SiO ₂ :	1 – 3%	TiO ₂ :	0.2%
MgO:	9 – 11%	LOI:	<1

Refractoriness >1730 °C, <2260 °C

Sintering Temp: >1600 °C

PH Value: Typ=7, Range= 7-9

Acid Demand @ PH 7: Typ=0.5, Range= 3cc

Humidity: Typ 0.01, Max 0.2%

Size: AFS 45-50 / 50-55 / 55-60

Color: Black, Shiny Black

Supply Capacity: Up to 50 MT/M

Packing: 1 MT Jumbo Bags (Customizable)

Content:	Grade	Content:	Grade
Cr ₂ O ₃ :	45 – 50%	Fe ₂ O ₃ :	18 - 20%
Al ₂ O ₃ :	10 – 12%	CaO:	0.1 - 0.4%
SiO ₂ :	Avg 3%	TiO ₂ :	0.1%
MgO:	14 - 16%	LOI:	<1

Refractoriness >1730 °C, <2180 °C

PH Value: Typ=8, Range= 7-9

Humidity: Typ 0.01, Max 0.2%

Size: AFS 45-50 / 50-55 / 55-60

Color: Black, Shiny Black

Supply Capacity: Up to 50 MT/M

Packing: 1 MT Jumbo Bags (Customizable)

Our Products And Monthly Supply Capacities:

Molybdenum Oxide

Content:	Grade	Content:	Grade
Mo:	62 – 63%	Pb:	0.08%
Cu:	1% Max	C:	<0.08%
S:	0.15% Max	P:	0.05% Max
Size:		0 – 6 mm (90% Min)	

Packing: Steel Drums OR 1 MT Big/Jumbo Bags
Monthly Supply Capacity: up to 200 MT/M

Copper Concentrate

Content:	Grade	Content:	Grade
Cu:	20 – 22%	As:	400 – 500
Pb:	0.05 – 0.15%	Hg:	<0.1 ppm
Au:	900 – 1,000 ppm	F:	7 – 10 ppm
Ag:	13 – 16 ppm	Cd:	9 – 10 ppm
S:	40 – 44%	Size:	0 – 0.75 mm

Packing: 1 MT Big/Jumbo Bags
Monthly Supply Capacity: up to 500 MT/M

Our Products And Monthly Supply Capacities:

HC Ferrochrome (HC FeCr)

Content:	Grade
Cr:	62 – 65%
Si:	<2%
C:	6 – 8%
S:	<0.07%
P:	<0.03%
Fe Total:	23 – 26%
Size:	10 – 60 mm

Packing: Bulk or Big Bags

Supply Capacity: Up to 500 MT/Month

Steam Coal & Concentrate

Content:	Coal	Concentrate
Ash:	25%	11%
Total Moisture:	5% Max	11% Max
Volatile Mater:	9 – 17%	30%
Total Sulphur:	<1%	<1%
Carbon:	Up to 60%	50 - 55%
Colorific value (Kcal/Kg)	6000 – 7000	7200
Size:	0 – 150 mm	3 – 20 mm

Monthly Supply Capacity:

- **Steam Coal:** Up to 15,000 MT/M
- **Coal Concentrate:** Up to 10,000 MT/M

Our Products And Monthly Supply Capacities:

**Reinforcement Steel Bars
(Rebar)**

Product Type: A3 (A400) rebar (14–28 mm)
Monthly Supply Capacity: up to 3,000 MT/M

Steel Billet (3sp)

Chemical Composition:

N:	<60 ppm	S:	0.021%
Cr:	0.01%	P:	0.008%
Ni:	0.008%	Si:	0.21%
Cu:	0.007%	Mn	0.67%
C.E:	0.36%	C:	0.26%
Size:	130 * 130 (mm*mm)		
Length:	12 M		

Monthly Supply Capacity: up to 10,000 MT/M

Quality Assurance:

To guarantee product consistency and customer satisfaction, our quality management system includes:

- In-house sampling and laboratory testing.
- Strict adherence to customer specifications.
- Batch-by-batch inspection and certification.
- Continuous monitoring of moisture, purity, chemical composition and particle size distribution.
- Compliance with international export standards and safety regulations.

Our Strengths:

- **Strategic Locations** ensuring efficient logistics and proximity to major mines.
- **Integrated Operations** from production to export documentation.
- **Flexible Capacity** to meet both spot and long-term contract requirements.
- **Diversified Product Portfolio** covering multiple industrial sectors.
- **Experienced Management** with regional and international commodity expertise.
- **Stable Export Record** across Asia, the Middle East and Europe.

Our Team:

Our team is composed of experienced engineers, metallurgists, chemists, production managers, commercial experts and logistics specialists. Together, we ensure:

- Reliable and efficient plant operations
- Accurate quality control
- Professional communication with clients
- On-time execution of contracts and shipments

We believe strong teamwork is the foundation of our performance and customer satisfaction.

Why Chose Us:

- Consistent and reliable monthly supply
- Competitive and transparent pricing
- Strong logistics and export capability
- Proven track record with global industrial clients
- Commitment to long-term partnerships
- Fast response and customer-centric approach
